

JULY, 2012 CHRONICLE

DO YOU FEEL THAT THE HKSA WEB-PAGE NEEDS STRUCTURAL REVISION?

If your thinking is "Yes", that was exactly what all the Excom Members thought in the July Excom Meeting. The Chairman would lead a Working Group to scrutinize our web-page, which was last revised in 2006, to bring it updated in format, and be hopefully 100% serviceable to our members. Invitation was sent to all members get talent from amongst our membership to involve in the Working Group. 4 members companies responded. Mr. Kevin Cheng of Powerful Industrial Ltd, Mr. Steve Lee of Axis Communications Ltd, Mr. Joe Lam of Founder GlobalTech Ltd, and Mr. Dennis Cheng of MaCaPS International Ltd volunteered to join the Working Group to share their expertise. We will keep you updated on the progress.

TECHNOLOGY SEMINAR

The Type 4 members' meeting was held on 24 July, 2012. The meeting focused on what members considered the Association might do to help expanding their exposure and product promotions. One suggestion was to hold another technology seminar. The meeting decided to see if that could be arranged in very late October or early November this year.

As a matter of fact, the Excom Members in all meetings had kept brain storming among themselves to arrange events and activities that could be beneficial to our members in their business. If you have any bright ideas, we will definitely be ready to listen.

AMENDMENTS AND ENHANCEMENTS OF MEASURES TO THE ARMS LICENCE CONDITIONS

The Police Licensing office has issued a few amendments and enhancement measures of the arms licensing conditions to all arms licence holders. These changes affect both running cost and current operational practices. Our Type 2 members (armoured vehicles) and members with armed guards felt that the proposed amendments and enhancements require fine tuning to make them really workable. The Association, with representatives from these members had met with PLO twice to negotiate and to tender our concerns. The matter is under close monitoring by the Association on behalf of members

BREAKFAST TALK

We haven't had this brief gathering for quite a while. The Excom would like to see if we can have one in September. We have contemplated to have a morning breakfast of "Members get to know Members". Participants will be allowed a short introduction of his/her companies, and the services provided and their expertise in the industry, say for around 3 minutes. This would be a very interesting gathering for our members to share facts of their companies and thought.

We shall inform you detail once the breakfast date, time and venue are fixed.

GOOD BYE FOR NOW, AND TILL THE NEXT MAIL, BEST REGARDS FROM THE EXECUTIVE DIRECTOR
