

SEPTEMBER SECURITY NEWS

HELLO! A GOOD DAY TO YOU ALL!

Firstly, in the last Executive Committee Meeting in September, the Monthly chronicle has now been re-named as "Security News". This new name allows for greater flexibility in its coverage while at the same time, keeps you abreast of what the Executive Committee is working on.

(1) The invitation for suggestions to up-grade our web-page has concluded. We are now seeking contractors to provide the revision we require.

One most important feature is to provide a directly linked full page for each member at the "MEMBERSHIP SERVICE DIRECTORY" to input all services and products information for the member companies. Each member can also insert their company LOGO after their company name. So get prepared.

(2) Remember the "Industrial Training Advisory Committee" (ITAC)? Finally, it is coming to the security industry. HKSA will be among the other professional bodies on the committee when it is formed.

The Association supports the ITAC because we believe that (a) it will lead the services to be recognized with a professional status, (b) by marking out a clear career path encouraging young people to join the industry, and (c) the qualification framework which indicates the promotion roadmap retains practitioners in the industry.

PLEASE SUPPORT THE ITAC

(3) The Association Christmas Lunch has been fixed for 11th December, 2012 at the Royal Plaza Hotel. Please mark it on your diary, and support this function when officially announced. You and your staff will enjoy a joyful and delicious lunch with others in the industry, and of course the chance to win lucky draw and gifts.

(4) A Technology Seminar has been scheduled by your Association on 23 November, 2012 in the afternoon. The presenting companies are Sony Corporation of Hong Kong Ltd, Axis Communications Ltd, Securex Solution Ltd and TeleEye Holding Ltd. We promise you a totally informative presentation on innovative and problem solving insight into new CCTV products. WATCH OUT FOR THE NOTICE. It is coming soon.

(5) One of our new members CSL Ltd had organized a tour to their 4G/LTE Centre earlier in July. In November, CSL Ltd again has proposed another visit to their TST Centre and get acquainted with CSL LTE phone features and CSL application for logistic industry. It should be very interesting. If you are interested, the notice to take part will come out next week. The visit limits to 40 persons. So be the early bird!

By the way, if you have new products and/or new applications and solutions, you are welcome to write to the Association through e-mail, to extend invitation of visit or seminar to all other members.

MAKE BEST USE OF YOUR ASSOCIATION AND EXERCISE YOUR PRIVILEGE AS A MEMBER
